Daly City Record To Sponsor Event, Oct. 22-23

Save these dates! October 22 and October 23.

Why? The Happy Kitchen Cooking School is coming to town!

Where? At the Daly City theatre.

Time? Afternoon each day.

The Daly City Record is bringing you two days of profitable entertainment. Miss Carolyn Carr of the Happy Kitchen Cooking school will amaze you with the lightning speed at which she turns out delectable cookery. And as she works she will point out to you shortcuts in method as well as grand ways to clip the budget's claws. Then you, too, can add an attractive variety to your "three-a-day" with no extra burden of time or cost.

To cooperate most fully with the Daly City Record Miss Carr will visit Daly City before the school. She will call on your local merchants so that she can tell you just where you can procure locally all the interesting and practical equipment and supplies she will use on the stage. It will give her time to install her Happy Kitchen on the stage of the Daly City theatre for your inspection.

Miss Carr has a rich background of interesting experience in the Home Economics field. You will find that she has a large fund of information and ideas. She welcomes your questions.

This is your school so some early each day as the guest of the Daly City Record.

Jeff Grid Star Plays For St. Mary's

Gridiron glory came to Daly City, Sunday, at Kezar stadium, through the topnotch playing of Roy Giusti, former Jefferson Union high school grid star. Giusti, versatile left half-back of the St. Mary's frosh eleven, won many sports awards during his four years at Jefferson.

DALY CITY TO COOPERATE IN REGISTRATION OCTOBER 16

Local Election Officers Volunteer Services To Aid First Peace-Time Draft

Cooperating in the country-wide registration for national defense, Daly City polling places will be open from 7 a. m. to 9 p. m. next Wednesday, October 16.

All male residents between the ages of 21 and 36 will be required to register on that day as the first step in America's first peacetime draft.

Election officers were notified by mail last week of the national emergency and asked to volunteer their services for the day.

Precinct chiefs will meet at 2 p. m. Friday at the city hall, 75 Wellington avenue, to receive their instructions and supplies. Oaths of office will be administered at that time, according to County Clerk W. H. Augustus.

At the polls, registrants will be asked eleven easily-answered questions. The questions will be confined to information needed for notification in case his number is drawn for the draft.

After filling out the questions and receiving an identification card showing his registration, the man may or may not received a detailed eight-page questionnaire, depending on whether he is chosen for service.

On the basis of the later questionnaire, which includes information on marital status, employment and other data which would affect possible deferrment, the actual conscripts will be called.

The preliminary questions to be asked October 16 are as follows: name, address, telephone number, age, place of birth, country of citizenship; name of persons who will always know your address, his relationship and address; employer's name, place of employment or business.

Make Tentative Plans For Hallowe'en

Tentative plans for a city-wide Halloween celebration, October 31, were drawn up by the Daly City Recreation committee Friday evening.

Details of the annual event will be announced as soon as possible, according to Bruce H. Boynton, local WPA Recreation supervisor.

Also under discussion was playground apparatus for Acton street park. City Engineer Robert Klassen submitted blueprints to the committee for approval.

Present at Friday's meeting were Mayor John J. Fahey, Councilman Edmund Cavagnaro, Co-Sponsor's Agent A. J. Bodien, City Engineer Robert Klassen, Superintendent of Schools R. L. Crane, Mrs. Ann Eason and Recreation Director Bruce H. Boynton.

Fall Festival Draws Huge Crowd

It was a great occasion.

Seven gross of balloons were "popped" by the crowds.

Hundreds of baseballs were hurled at the "Dodge 'Em" men.

Thousands of pennies and nickels and dimes poured into the church treasury.

And everyone had twice as much fun as they expected.

Reviewing the fast-moving events of Daly City's first huge carnival and bazaar at Our Lady of Perpetual Help church this weekend, Father Charles S. Gienger today reported that the affair had been an "unqualified success."

Miss Faulk is well known in Daly City, where she was graduated from Jefferson Union high

school in 1937. She has had one semester of instruction at the San Francisco junior college, with physical education as her major. Miss Faulk plans to continue her training on a part-time basis at the college.

The new leader will fill a vital position at the local high school as supervisor of girls' activities in the gymnasium after school hours and in the evenings.

Mail Letters On Tree-Planting

Daly City's Tree-Planting committee sent out a call to arms this week, as nearly one hundred local organizations received an urgent appeal to support the city-beautifying movement.

A mass meeting is scheduled for 8 p. m. October 17, one week from tomorrow, at 809 Brunswick street, to discuss further action. All organizational delegates and others interested persons are urged to attend.

Suggested several weeks ago by Ed Goldkuhl jr., Daly City fireman, the plan has found increasing favor with local residents. It calls for the planting and care of small decorative trees along residential streets. George Ryan is

Fire Chief Andrew P. Chesney Urges "Safety First" All Year 'Round

October 6-13 is National Fire Prevention Week, Chief Andrew P. Chesney reminded the public today. Schools, city governments and fire departments throughout the nation are cooperating to urge "safety first" in a reduction of fire hazards.

"If private citizens could read the reports gathered by national fire agencies, I think everyone would agree that Fire Prevention should be observed for 52 weeks a year instead of one," Chief Chesney said today.

"It is estimated that three human beings are burned to death every twenty-four hours," he continued. "The appalling loss of life from fires averages a yearly total of 4,000 for children alone.

"Enormous financial losses are

also experienced through neglect of proper fire precautions. It will be a wise thing to remember National Fire Week every day of the year."

Music

Palm trees, surfboards, blue skys, bright shining stars, soft music, your best beau! What more could you wish for?

What are we rambling on about? Why, don't tell me you haven't heard. Jeff is having their first dance of the semester, with the soft strains of King Lembi's musical Malihini to drift you through a perfect evening.

When talking to that popular entertainment chairman, Miss Betty Coen, about the dance and decoration, she had me so pepped up with her ideas for a gala evening, I don't see how anyone can afford to stay home.

The auditorium will be decorated with palm trees, surfboards, hula skirts and leis. Artificial blue light will be thrown upon the ceiling to make it appear like the soft blue of a Hawaiian sky. Yes. There will even be stars twinkling down at you. The committee is planning to hang stars painted with this pretty sparkling stuff.

Betty was bubbling over with excitement as she told me that the dance is going over better than usual and that they've sold approximately 200 tickets. "Isn't that simply grand," she exclaimed. I certainly agree with her, and think the whole committee deserves a big hand.

Miss Amy Behrens, Miss Ethel Fillmore and Miss Elizabeth Jones will be the hostesses for the evening. Truman Bentley, tRobert Brand, Claude Hackley, and Clive Saiz will be hosts.

Campus Fashions

Oh dear, what to wear to the dance, Friday . . Ummmm, let me think.

Why worry? Why think? Let Miss Fashion put your mind at ease with a few timely suggestions.

Have you seen the new "Boogie Woogie" plaid skirts? They are darlings. Made in plaids of blues, greens and browns. Whatever color you decide upon, choose a contrasting sweater of either a lighter or brighter hue. In any case, be sure you have your color scheme in mind before going in search of an outfit.

The stylish girl will have at least one little ornament decorating her throat or wrist. They are putting out the cutest gold mesh belts to wear with your sweaters. You can buy necklaces and bracelets to match.

If you want to be in tune with the evening, Friday, get some of those darling Hawaiian trinkets.

Another cute outfit for that special occasion is a dress in a pastel hue of velveteen. They come all sheared around the waist, (just the thing to make your waist appear quite slim), and have chic little Peter Pan collars or heart-shaped neck-lines.

Have you heard? The girls in the junior college have started a new fad for sport dances. They're wearing a sock of one color on one foot, a sock of different color on the other. With a blue skirt and a white sweater, one blue sock and one white sock are quite appropriate. Silly isn't it? But, Oh! so cute. Why don't you try it?

We haven't quite decided whether or not we should hand out fashion bouquets or just an extra large fashion bouquet. At any rate our compliments go this week to not one but **nine** smart girls. Dressed exactly alike in darling circular white sharkskin skirts, chic little red sweaters with block "S - D" (in case you're interested it means Star Dusters) emblems on the front of them, white shoes and red sox, the nine were a charming picture. So this extra, extra large fashion bouquet goes to Misses Violet Bullo, Betty Morris, Betty Brewer, Tillie Castro, Mary Picchi, Lillian Giannacchini, Adele Menjou, Mary Heyward and Dina D'Elia.

Classes

Science

The members of Lionel Gray's and Edgar Smith's biology classes put their bugs and skeletons away long enough to decide upon the student leaders for the semester.

The following officers were elected in Smith's classes: first and second, president, Katherine Lopresti; vice-president, Marie Haller; secretary, Bob Bybee. Third and fourth periods, president, Leslie Whiteley; vice-president, Earl Cagnier; secretary, Losi Case. Fifth and sixth, president, Easther Hanel; vice-president, Andy Parodi; secretary, Dave Johnson. Seventh and eighth, president, Earlyn Barker; vice-president, Louise Baciocco; secretary, Salvatore D'Urso.

The first and second periods on Gray's class elected the following people for officers: president, Josephine Bricker; vice-president, Mary Lou Becker; secretary, Virginia Mohdon. Third and fourth elected Shirley Allen, president; vice-president, Georgette O'Brien; secretary, Jean West. Fifth and sixth chose Edward Briseno, president; secretary, Gene Pidgeon.

There wasn't any dillying and dallying at their first meeting, as the new officers got right down to the business of planning their annual deep sea-fishing trip. After much discussion the members decided to hold it sometime during the last of October or the first of November.

Visiting Students

Last week seemed to be visiting week for Jeff, as twelve members of the CSF made a tour of the Chronicle in celebration of Newspaper Week. Mrs. Dorothy Pendergast and Jack Chapman, faculty advisors, accompanied the members on the trip.

The Commercial geography classes couldn't let CSF members get ahead of them, so they decided to go visiting, too. Miss Edna Smith took her several classes on a tour through the Sea Island Sugar refinery.

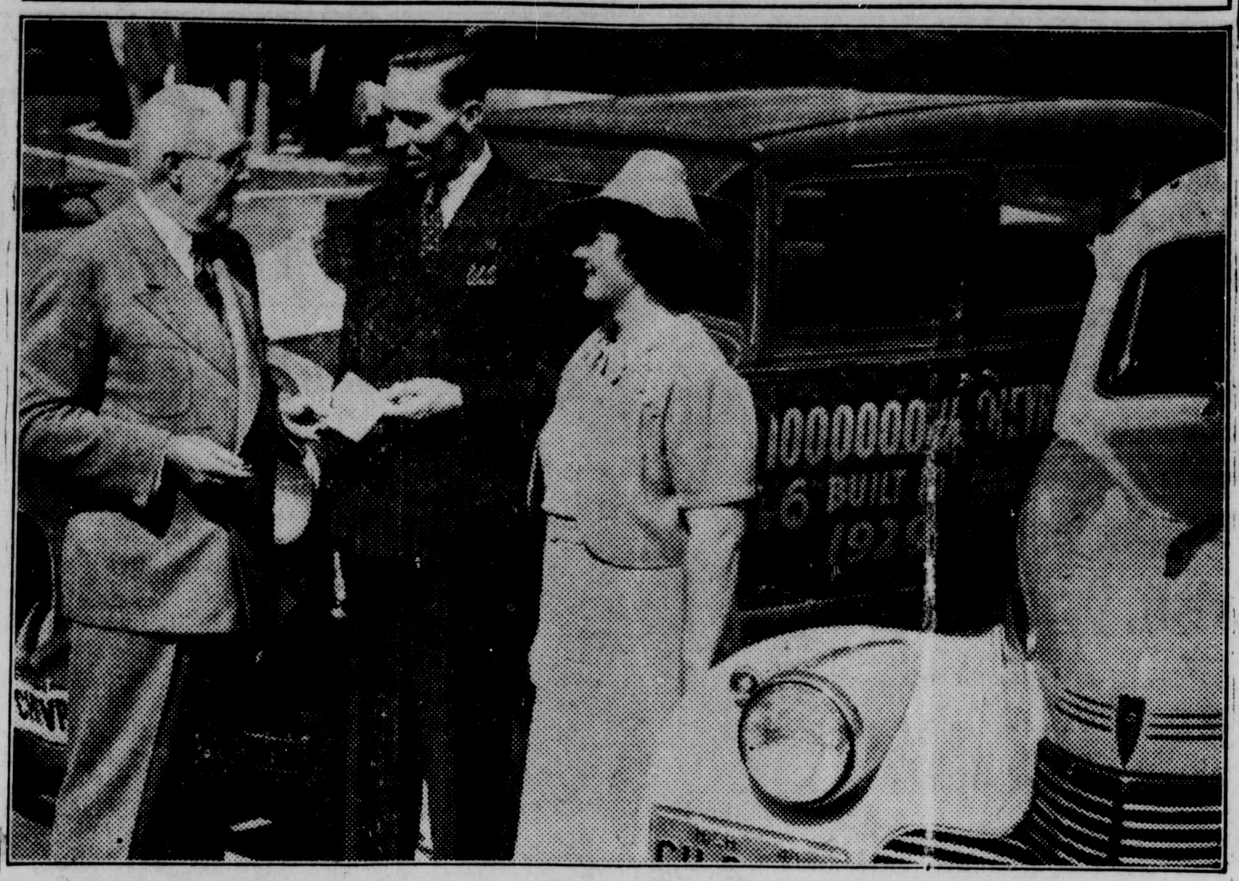
"Milestone Car" Presented to Contest Winners



Presentation of Chevrolet's "Milestone Car"—the 1,000,000th 1940 model produced by the industry's leader—was made at the New York World's Fair last week to Mr. and Mrs. Ernest Weinert (shown here), of Iron Mountain, Mich., owners of the millionth Chevrolet six-cylinder model, built in 1929. The Weinerts were winners of a nation-wide contest conducted by Chevrolet to locate No. 1,000,000. As guests of Chevrolet, the Michigan couple drove to New York, arriving at the Fair with more than 110,000 miles on their '29 car, which Weinert had purchased as a used car, at a price of $25. M. E. Coyle (left), general manager of Chevrolet, presented the new 1940 Special De Luxe model to the Weinerts. Chevrolet's production of a million units this year maintains a seven-year record of a million a year average, with the 1,000,000th 1940 car following No. 900,000 by exactly one month. The well-traveled 1929 model has been returned to Detroit, where it will be placed on display.

Buick Features Streamlined Bodies

New streamlined bodies, wider even than the popular "Torpedo" models, are found in the 1941 Buick line.

Outstanding among the new designs is the "Sedanet," an entirely new body type that combines features of the sport coupe and 2-door sedan, and supplants these models in the Special and Century, or 40 and 60, series.

From the side, this new "unisteel" turret top body by Fisher looks exactly like an airfoil section. Gone completely is the break in line between the body proper and trunk of coach models. The solid steel roof flows in a single, gently sweeping curve from the windshield to the rear bumper.

Accommodations for rear-seat passengers are all that could be desired. The rear seat is full-sized, with the cushion placed above the level of that in front to give the occupants an unobstructed view of the road.

Buicks for 1941 are now on display at Belli Motor company.

Miss Rose Kiddies Win Applause

Miss Rose's Dancers were a feature attraction Sunday afternoon of the huge carnival staged this week-end by Our Lady of Perpetual Help church. Youthful stars who won the audience's applause included Carol and Eleanore Benedetti, Joan Hopman, Shirley Combs, Carley Carle, Anna Domecus, Alba Canale, Violet and Ruth Sanderson, Lorraine Remmer, Dorothy and Joseph Langensand, Mary Lou Montano, Richard VerBrugge, and Raymond Hechim.

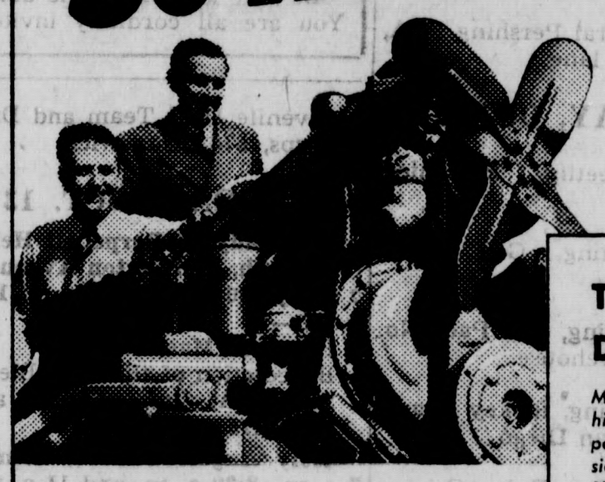
So we hitched our wagon to a FIREBALL



—and gave these smarter, roomier cars even more sensational PERFORMANCE than before

THIS formidable example of precision machinery you see above is the new 1941 Buick FIREBALL engine.

It takes its name from what happens inside it.

Like all engines that hold major speed records on land, sea and in the air—like the famed General Motors new Allison aviation engine—it is *valve-in-head* type.

It represents 39 years of the development concentrated on valve-in-head design—and it stands today as the one engine in the land that really capitalizes on the new and better modern fuels.

The pistons in this Buick FIREBALL Eight are found in no other automobile engine.

THE FIREBALL DOES IT!

Modern gasolines have high octane ratings to permit higher compressions without "ping." Note how this piston, which can be used only in valve-in-head engines, rolls the fuel charge into the shape of a flattened ball that centers around the new, smaller, racing-car type spark plug. Fired at its very heart, this more highly compressed fuel lets go with such full-forced, "ping-free" wallop that any gasoline of 75 octane rating (now available at standard-fuel prices) may be used in the 115-hp. engine. Any fuel of 80 octane rating serves in the 125- and 165-hp. engines.

Cupped in new contours to complement the dome of the cylinders, they roll the inrushing fuel charge into a flattened and turbulent ball, packed fat with potential power.

Concentrated about the racing-car type spark plugs, that explosive ball is fired from its very heart.

So great is its extra thrust that the same-size engine which last year developed 107 horsepower now pours out a super-efficient 115—and delivers *more* miles per gallon throughout the whole performance range on *regular*-priced gasoline!

This is the Buick FIREBALL principle, latest development of Buick's exclusive Dynaflash design.

There's still more to the story in the wonders worked by Compound Carburetion.

A standard part of Buick SUPER, CENTURY, ROADMASTER and LIMITED engines, this fuel-supply system lets you travel at fifty on the same meager fuel ration you ordinarily expend to get thirty, and delivers up to 10% or 15% more miles per gallon of gasoline.

You can have it in your Buick SPECIAL for a small extra charge—and step up your 115-horsepower engine to a walloping 125.

But in big engine or bigger, you get plus-power from less gas—*even the 165-hp. 1941 engines giving more miles per gallon than last year's 107-hp. engines at speeds above 40!*

• • •

**According to the Encyclopaedia Britannica, a super meteor which travels with a series of explosions like the shock waves of a great projectile is called a "FIREBALL."*

Give Pedestrians A Break—

Pedestrians constantly arouse the ire of motorists. Quite often that anger is justified, because some pedestrians seem to invite getting killed.

But the National Safety council asks the drivers of motor vehicles to give the pedestrians a break. A person on foot has little chance against a two-ton car.

There are three times when the pedestrian has the right of way: 1. When he is crossing the street at a corner where there is no signal or police officer. 2. When he is crossing with a green light, and a car is making a right or left turn. 3. When he starts across a street and the traffic light changes. Remember these rules, —and one more. Always watch out for pedestrian mistakes! Expect the unexpected! Note: twenty of the 47 fatalities in San Mateo County traffic accidents since January 1 were pedestrians.

ONE INDUSTRY IS PREPARED—

By Neal Van Sooy, Azusa Herald

Last week saw the official unveiling of several 1941 model automobiles, and despite the war in Europe, and conscription in America, the sales executives predict a banner year for the new cars.

What I wondered as I heard their optimistic talks, was: if more people keep buying more cars, and the war keeps increasing its mechanized tempo—then what are we going to do about our oil supply?

You will recall that a year ago we voted on a measure for State control of petroleum production, and the general impression we got during the campaign was that practically everyone felt that we were in danger of exhausting our oil resources otherwise. The bill was defeated and consumption has increased greatly since then; has the problem also grown more grave?

Not according to statisticians of the Pacific Coast petroleum industry, for in talking to one of its representatives, I found that this country not only produces enough gasoline products to take care of us for years to come, but also produces such a superior grade that it gives us worldwide supremacy in performance as well as in quantity.

For example, our Pacific Coast oil companies are producing 2,000,000 gallons per day of aviation gasoline, enough to fuel five times as many military planes as we now have. Furthermore, our gasoline is so much better than foreign brands that our planes can fly 30 per cent faster, climb 25 per cent quicker, carry 25 per cent more load, and give 80 per cent more engine wear.

The Pacific Coast production alone can keep 1313 bombers (or 1458 pursuit planes) in the air for four hours a day—day after day. The Pacific Coast industry alone can supply the Navy with all the oil and grease it needs —day after day. The Pacific Coast field alone can keep the Army's tanks, trucks, motorcycles, guns and cannons going—day after day. Yes, it can do all this and still keep our private and commercial autos running as usual, and continue to supply fuel for all present and future needs in our factories, stores and homes.

These statistical experts say that our present known supply in California can last for 20 years, in spite of a terrific consumption such as war might demand, and that new underground fields are being discovered faster than the old ones are being drained, to give us an even larger reserve.

More than any other nation in the world, the United States is able to look upon one phase of its defense program—the petroleum industry—with satisfaction. The industry's voluntary conservation of much of its resources, plus its constant research into new fields and its steady improvement of drilling, piping and refining facilities, assures us of a trump card in any international emergency.

TREE PLANTING—

Congratulations are due the Daly City Tree Planting committee, which is working hard to push the city beautification plan suggested by Ed Goldkuhl jr., local fireman.

The Record urges everyone who wants a more attractive residential district to consider seriously the merits of this plan.

Consult the news story on page 1 for details. REMEMBER—a project of this kind can be a success only if ALL of the people who want the benefits of the program lend their support to it.

"Tippe" Leaves Nineteen-Year Job

Nineteen years ago, Tippe, a beautiful white Australian Shepherd puppy, joined the household of Mr. and Mrs. Martin Burnham at 458 Miriam street.

In the years that followed Tippe became the guardian of the entire neighborhood. Beloved by children and adults, he enjoyed an ever widening circle of friends.

Today Tippe is gone. He did not have his customary coffee and toast for breakfast. He did not take his usual walk around the block to be sure everything was in order. Tippe, a victim of paralysis and the other ills of old age, is dead.

Solo Skaters Make High Speed

Seventy miles an hour doesn't seem to be a terrific rate of speed, but it's plenty fast if you are a solo skater making eighty to ninety revolutions in a single spin.

Its has been figured out by mathematicians that champion skaters average such speed in the sensational spins they perform during ice skating competition. Practice test for such spectacles are among the thrills at Winterland, the West's newest, largest and most elaborate ice skating rink, which is now open to the public. The rink is located at Post and Steiner, San Francisco.

Studebaker Anticipates Good Automobile Year

Studebaker expects to build and sell more than 150,000 automobiles during the 1941 model year, according to a recent interview with George D. Keller, vice president in charge of sales. This will be an increase of 28 per cent over the 1940 model year when 107,963 Studebakers were built.

"Every indication is stimulating," said Keller. "Even with the uncertainties of the war situation, better business in all branches of American industry is indicated and we believe that we have been conservative in setting our 1941 model production figure at 150,000.

"We have several points to support our optimism. In the first place, the Champion has not only taken a strong position in the industry, but we have a good strong bank of Champion owners, who will come up for new cars. The car has established itself as an economical automobile and its resale value is high. Our new Presidents and Commanders will make gains in their respective fields."

Studebaker is shown locally by William J. Sweeney, 6806 Mission street.

A LUNCH *with* HOT FOOD *helps* Jack and Jill work with a will

by Dorothy Greig

"HURRY home at noon", Mother would tell us youngsters. "There'll be a good hot lunch waiting for you." Mother was a great believer in the powers of wholesome food to solve most problems of life. "No excuse for poor marks after that lunch", she'd say.

And she spoke more truly even than she knew. Food authorities tell us that children need a well balanced, nourishing meal at noon, preferably with some hot food. Only then can children be expected to study well. A good lunch renews their vitality and helps keep them alert for the afternoon's work.

The hot food may well be soup—nourishing, and easy to prepare. Or it can be a simple casserole. For instance:

**recipe given below*

Cream of Chicken Soup*
Fruit Salad with Cream Cheese Sandwich
Milk

Tomato Juice
Casserole of Macaroni and Cheese
Raw Carrot Sticks
Whole Wheat Bread
Baked Apple
Milk

Cream of Tomato Soup
(to condensed tomato soup add an equal quantity of milk)
Grilled Cheese Sandwich
Celery Hearts
Rice Pudding
Milk

Creamed Ham and Potatoes in Mushroom Sauce*
Jellied Carrot and Pineapple Salad
Bread and Butter
Milk

Vegetable Soup with Crackers
Sliced Egg Salad on Lettuce
Oatmeal Cookies
Milk

Cream of Chicken Soup*
(youngsters love the hint of orange in this)

1 tablespoon butter
1 tablespoon flour
1 cup milk
1 can condensed chicken soup
1/16 teaspoon grated orange rind

Melt the butter in a saucepan and add the flour and cook until frothy. Then add milk and the chicken soup and cook until thickened. Add the grated orange rind about five minutes before serving. Serves 3-4.

Creamed Potatoes and Ham in Mushroom Sauce*

1 can condensed cream of mushroom soup
½ cup milk
2 cups potatoes, diced
1 cup ham, diced
1/16 teaspoon grated lemon rind

Empty the cream of mushroom soup into a saucepan and stir well. Then add the milk, potatoes, ham and grated lemon rind. Heat to blend the flavors. Serves 4-5.

Home at noon to a nourishing, high vitality lunch.

Ann Sothern At Daly City In 'Maisie' Laughs

A new romantic team that squabbles more than it romances, makes its first appearance in "Gold Rush Maisie," which comes tomorrow to the Daly City theatre, with Ann Sothern and Lee Bowman as its battling duo.

Third in the popular series dealing with the adventures of the stranded showgirl, "Gold Rush Maisie" presents Miss Sothern in her familiar characterization, this time adrift in the midst of the Arizona desert when her old jalloppy breaks down while she is en route to a cafe job. Bowman appears as Bill Anders, a handsome hermit and ranch owner who is happier the fewer people he sees. After he has given Maisie shelter for the night, she returns, much to his disgust, with a whole family of itinerant crop followers who are on the trail of a gold strike.

Slim Summerville adds to the comedy as Fred Gubbins, Bill's misanthropic hired man. Virginia Weidler is the fourth of the quartet of principals, as Jubilee Davis, daughter of the crop-following family and a devoted admirer of Maisie.

The attempts of the Davises and Maisie to find gold are crowned with temporary success, but assayers inform all the prospectors that their strike is virtually worthless as the ore is of too poor a grade to warrant mining. Then Maisie is forced to solve their problems all over again.

Companion feature will be "Man Who Talked Too Much," featuring George Brent, Virginia Bruce and Richard Barthelmess.

Special Services At B'nai Israel

Rosh Hashana, the Jewish New Year, is being ushered in with the traditional ceremonies at all Bay District synagogues. Services which began on Wednesday evening marked the beginning of a ten-day period of penitence which will end on Saturday, Yom Kippur, the Day of Atonement.

In Daly City officials of Congregation B'nai Israel announce that special services will be held in the synagogue at 67 Los Banos avenue. The public is invited.

"MAISIE'S BACK WITH A BANG!"

"Light" was the major topic discussed by students in room seven, last Tuesday. The students have been working hard on their exhibition of "Light and Its Benefactions" for the past several weeks.

Many interesting models were made and displayed by the sixth graders. Everything from the cave man's mode of lighting to the present day electric light bulb was exhibited by the children.

The discussion and program was under the joint chairmanship of Harold Bocci and Nathan Agresti.

Seventh Grade

An artistically arranged bulletin board, illustrating the story of health, has been featured in the seventh grade hygiene period.

Members of the class wrote topics on their favorite American sports, telling of the importance of a sound mind and body.

Skeeter Cheater

After four years of experimenting, five scientists at Rutgers university, New Brunswick, N. J., have developed an insect repellent which they claim will protect the most susceptible skin from mosquito bites, says the Country Home magazine. One of the scientists tested the new product in a marsh, smearing half of his body with the product and leaving the other half untreated. He was bitten more than 5,000 times on the untreated skin, while insects carefully avoided the treated portion.
